| Degree of protection acc. to DIN EN 60 529 for coupled connector | IP 65                    |

<sup>1)</sup> without washer

<sup>2)</sup> IP 65 is achieved with sealing screw 09 20 000 9918

## Characteristics

The industrial market places high demands on connector systems. In order to meet these diverse demands HARTING has developed a new locking concept. The Han-Easy Lock® lever system differs in all component parts to any product previously offered on the market.

With the combination of a plastic element and stainless steel springs and bearings, the following major application advantages are given:

- Easy handling
- Low operating forces
- Stable lever position
- Excellent sealing
- High number of operating cycles
- Corrosion resistance

Easy and secure handling of the connector, even in areas with awkward or restricted access.

For summary of locking levers see page 00.09
